The Dzogchen Longsal Empowerment was discovered at Bhutan's Burning Lake in Bumthang. The Amitayus text is an earth terma, physically found in southern Tibet. These empowerments are terma texts hidden in the 8th century by Padmasambhava in Bhutan at Burning Lake and other places and rediscovered by Tertön Pema Lingpa in the 15th century. The other empowerments are mind treasures: 21 Taras Empowerment, Kurukulle Empowerment, and Tiklé Gyachen Empowerment. These empowerments are important for these reasons.

- They are dharma terma treasures from Guru Padmasambhava found by his regent Tertön Pema Lingpa.
- Kyabjé Gangteng Tulku Rinpoche is the ninth reincarnation of Pema Lingpa.
- Rinpoche was last in North America in 2018. Timing is important. It is uncertain when we can next invite Rinpoche to give blessings and teachings. So please everyone join together to benefit from this rare opportunity.
- These are very important for the blessings, bringing of good fortune, peace, happiness, removing obstacles and bringing the seed of liberation.
